Quality Policy

It is the policy of David Bowler & Sons Ltd to satisfy all our customer needs and expectations in the supply of our products, including any applicable statutory and regulatory requirements. This should be achieved by the use of best preventive practices at all levels and ensure reliable risk management.

To this end David Bowler & Sons operates a Quality Management System that adopts the requirements of BS EN 9001:2015. The QMS is regularly reviewed to ensure its continuing suitability, adequacy and effectiveness, with any changes in the system that might be required along with their associated risks.

We are committed to continually monitor, develop, and improve the QMS system. We will measure our performance through the regular setting, reviewing of targets and objectives including customer satisfaction. The following key objectives help maintain and develop long term partnerships with our clients include good communications to clients by all staff, which is linked with the flexibility to meet the customer's needs with quality products delivered on time. Drive continual improvement and innovation based upon efficient business processes, along with our suppliers and sub-contractors also being encouraged to co-operate with us.

David Bowler & Sons Ltd ensures through regular training and review that all employees achieve the necessary level of competence to carry out their duties. All personnel within the company are responsible for the quality of their work and the requirements of our QMS, as well as its importance in meeting our business objectives and achieving our aims of long term success.

ENVIRONMENTAL POLICY.

Issue 9.

Commitment:

DAVID BOWLER & SONS LTD., (DBS) are primarily a Specialist Manufacturer of Metal Stampings (Pressings), supplying varied industries in both the United Kingdom and Overseas, within an ISO 9001:2008 management system.

DBS's strengths lie in its technical ability, highly efficient manufacturing production facilities and its skilled workforce to manufacture at a competitive but profitable price. DBS recognizes the interconnection between its activities within its manufacturing facilities and that of its environment, and as such is committed to providing an Environmental Management System (EMS), which is able to review and manage those activities together with their impacts on the environment.

Management System.

The Management System will be comprehensive enough to review and analyse, and help improve or change any of its activities to meet the requirements currently under ISO 14001:2015.

To achieve this objective DBS will:-

1. Ensure compliance to all existing legislation applicable to the environmental aspects of the business and that these are regularly reviewed.
2. Ensure that customers and their requirements in relation to the environment are at all times met and are regularly reviewed.
3. With the direction from the Director and Senior Staff through its internal communications system develop environmental awareness and its importance throughout the company.
4. Implement a continual improvement system within both the Company and the workforce to reduce its impact upon the environment, via the setting of objectives and targets.
5. Confirm methods to prevent pollution and waste in all areas, and control the safe disposal of hazardous waste in line with all current legislation.
6. Use efficient Energy in the form of Electricity, Gas and the control and usage and use of Water.
7. Measure and use methods to reduce the noise from our manufacturing processes and other activities to both improve the environment for our employees as well as our neighbours.
8. Analyse and reduce waste within our processes with the aim where possible and practical for such processes to become waste free.
9. Use where possible and practical, reusable or recyclable materials and components.
10. Use and have effective and safe Emergency procedures where appropriate.

Signed on behalf of

DAVID BOWLER & SONS LTD.,

R.W.Bowler

Managing Director.
